

EPIC

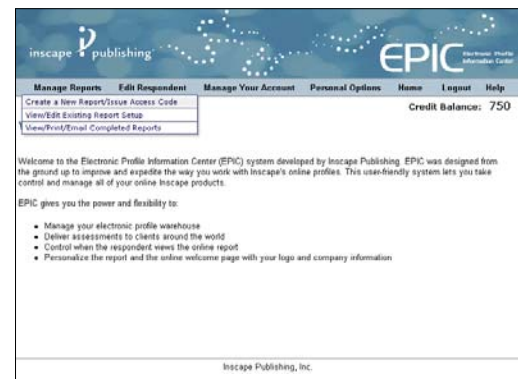

Electronic Profile Information Center

Electronic Profile Information Center

Organizations today need to do more with less. Business is moving at an increasingly fast pace, but with the effects of downsizing, workforces are smaller and employees have added responsibilities. Companies need to offer training opportunities that will help employees develop personally and professionally, assuring peak productivity in difficult times.

Increase Productivity

With less time and more to do, the commitment to organizational development is more important than ever. Helping employees develop interpersonal skills allows them to work more effectively as individuals and team members, and increased effectiveness improves productivity and grows the bottom line. EPIC, the Electronic Profile Information Center, can help deliver learning throughout an organization in less time for greater impact. Through EPIC, organizations can use their training time more effectively by capitalizing on the advantages of technology. Employees can complete their online assessments before training sessions, ensuring that every minute of training time is used to its full advantage. Plus, the EPIC system takes care of scoring the profiles, saving time and increasing accuracy.

Gain Administrative Control

EPIC system administrators control access to Inscape's online profiles by issuing access codes to anyone in the world via email, making the platform ideal for the needs of multi-location businesses. System administrators also determine when and where respondents view their profile results to manage every step of the learning process. Plus, trainers can personalize the response process by including their company or department's contact information and logo on the splash page on the EPIC site and the report cover.

The EPIC system also offers advanced functionality that permits system administrators to track various activities, including their system use and the number of profiles completed. Through EPIC, administrators can also view, print, or email completed reports, as the system maintains an archive of completed profiles.

Offer Enhanced Report Options

Introduce deeper levels of interpretation through the EPIC platform. The EPIC system offers reports and features not available in Inscape's paper profiles ranging from composite group results to overviews of a team's interpersonal relationships. Use EPIC to build group reports from data stored in the system, providing an analysis of team dynamics even as teams change.

Exclusive Access to Best-Selling Profiles

Three of Inscape's top products are currently available on EPIC: *DiSC® Classic*, *DiSC® Indra™*, and the *Team Dimensions Profile*.

EPIC is the only place to access *DiSC Indra*, the first DiSC-based In-Depth Relationship Assessment, unique in its ability to map and measure the relationships of people. Deliver cutting-edge DiSC learning through EPIC and *DiSC Indra*.

In addition to those products, EPIC will host four of Inscape's other most popular tools by October 2003: the *Discovering Diversity Profile®*, the *Personal Listening Profile®*, the *Time Mastery Profile®*, and the *Work Expectations Profile*.

Inscape Publishing

The power to transform individuals, teams, organizations. Inscape pioneered the original DiSC learning instrument over three decades ago. Today, we continue to create innovative products and services that inspire, energize, and empower individuals. Available in 21 languages in over 50 countries, our extensively researched, time-tested resources create the opportunity for transformational experiences. We have helped more than 40 million people develop a deeper understanding of themselves and their relationships, discover their potential, and realize greater success.
