CREATE SIMPLE, EFFECTIVE DISC®-BASED SOLUTIONS

The Everything DISC® Facilitation System is built on a series of Insight Modules that help facilitate specific outcomes, or “insights,” using a broad range of DISC-based reports and tools. With the Insights Modules, you can:

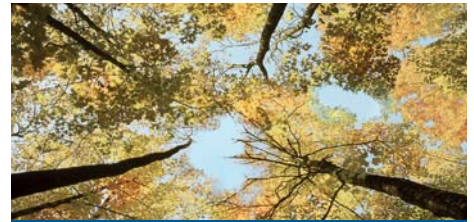

- Create simple, effective DISC-based training solutions
- Learn which DISC tool works best for your desired outcome
- Discover how to combine DISC resources for better results
- Customise your own DISC-based training solutions

By using Course Outlines, it's easy to organise Insight Modules into effective solutions. The Everything DISC Facilitation System includes pre-assembled Course Outlines on a number of topics, including Communication, Conflict, Interpersonal Effectiveness, Management Effectiveness, Sales and Team Effectiveness. You'll also get tips on building your own custom course outlines.

INTEGRATED DVD ADDS IMPACT

The Everything DISC DVD is the video companion to the Everything DISC Facilitation System. The Insight Modules include facilitation of the major portions of the DVD, or you can easily incorporate it into your existing DISC training. The DVD is menu-based and offers multiple viewing options for each of its four sections:

- **Pure Styles.** You'll meet four characters who represent the four DISC styles. The characters provide an overview about their behaviour and describe their goals, fears, preferred environment and response to conflict.
- **The Meeting.** You'll see a team in conflict, one-on-one discussions between a manager and each team member and a successful resolution.
- **Effective Communication.** You'll see examples of how an HR manager fails to communicate effectively, then improves by adapting his communication style to the DISC styles of four individuals.
- **Natural Styles.** You'll get informal, unscripted responses to eight questions from people of all four DISC styles, as well as a conversation between two opposite styles and a People-Reading activity.
