

Why become accredited?

Fortuna International Ltd distributes all Inscape Publishing products in New Zealand, which includes the DiSC behavioural model. We are also approved master trainers for DiSC Accreditation in New Zealand.

DiSC Accreditation training will equip you with the knowledge, understanding and tools you need to use DiSC profiles in a wide variety of training, coaching and consulting applications.

DiSC accreditation training gives you a thorough understanding of the DiSC behavioural model - the history of its development, validity and reliability, the administration process for both paper and online profiles, and how to interpret the results of both the DiSC Classic* and Circumplex reports.

This seminar teaches DiSC holistically, giving you an understanding of how it can be used to increase emotional intelligence and behavioural adaptability - the ability to respond more quickly and effectively to change.

In addition, we use the Integros own "Trust Inside" methodology to explore the relationship between trust and DiSC - how to use DiSC to create higher levels of responsibility and accountability in the workplace.

We exclusively use Inscape Publishing DiSC profiles in DiSC accreditation and training. The Inscape profiles are the most valid and reliable DiSC products on the market. Inscape is at the forefront of research and development in the application of behavioural sciences in the workplace and has published validation reports for all of its profiles. See our research reports for more info.

* DiSC Classic is covered upon request, typically during in-house or one-on-one training. We will always do our best to ensure your needs are met, so if you need to learn about DiSC Classic we will arrange this for you
